

2010 Professional Development Opportunities in Forest and Ecosystem Science Study Single Subjects through the Community Access Program

Subjects offered within The University of Melbourne's Master of Forest Ecosystem Science (MFES) may be taken as single subjects through the University's Community Access Program (CAP). Subjects are offered as two week intensive teaching blocks and are primarily taught at the Creswick Campus. A timetable for 2010 subjects is listed below. Subjects may be taken in either assessed (\$1413.75) or non-assessed modes (\$858.75)*. Inexpensive accommodation (from \$85 per week) is available at the Creswick Campus.

For more information about the Community Access Program and an application form, please visit <http://www.unimelb.edu.au/community/access/>. Further information about subject content is available at <http://www.forests.unimelb.edu.au/subjects.html>. Applications for CAP enrolment need to be submitted at least 4 – 6 weeks prior to the commencement of the subject.

220405	Forest Ecosystems	8 th – 19 th February	Creswick Campus
220504	Tree Growth and Development	1 st – 12 th March	Creswick Campus
220413	Forest Resource Assessment	22 nd March – 2 nd April	Creswick Campus
220418	Forest Planning & Business Management	12 th – 23 rd April	Creswick Campus
220510	Farm Trees and Agroforestry	26 th April– 7 th May	Creswick & Burnley
